Addnode Group acquires software company Landborgen and strengthens its position as a leading provider of case management systems

Stockholm, August 15, 2018 - Addnode Group has acquired the software company Landborgen, which provides case management systems for the Swedish municipalities' permit and supervisory activities. The company is a leading supplier in its market segment and has net sales of approximately SEK 10 M.

Landborgen has 20 years of experience in developing user-friendly and reliable case management solutions for licensing and supervision activities, including alcohol permits. The company's products AlkT and OL2 are used by more than 80 percent of Sweden's municipalities. In recent years, the company has also achieved success outside Sweden's borders and, among other things, supplies solutions to Oslo municipality.

- The public sector in Sweden is aiming to be the best in the world to use the potential of digitization. With Landborgen as part of Addnode Group, we can offer the municipalities even more seamless and integrated case management. This strengthens our position as a leading provider of document and case management systems to sustainable cities and communities, said Andreas Wikholm, President of Division Process Management.

"We are pleased to be part of the most competent and forward-thinking business group in the market. Our efforts on e-services and mobile solutions are well-suited to what is happening in other parts of Addnode Group. says Göran Nordegren, CEO of the Landborgen.

Landborgen is consolidated as of August 2018 as part of Addnode Group's Process Management division.
