

## Press release

# Addnode Group continues to e-archive for Swedish state agency Trafikverket

**STOCKHOLM, 2015-12-07 - Ida Infront, a subsidiary of Addnode Group, has received renewed trust to deliver an e-archive service to the Swedish state agency Trafikverket. The service covers operation, management and support of Trafikverkets central e-archive. The assignment has a total value of approximately SEK 12 million over two years.**

Trafikverket is the state agency which is responsible for the Swedish transportation system for roads, railroads, shipping and aviation. Trafikverket uses Ida Infronts e-archive service since 2011 for archiving digital information from various businesses within the authority, making it available to employees of Trafikverket.

- “It is of course very gratifying to get renewed trust from an important customer”, said Stefan Jonegård, Managing Director of Ida Infront. “There is an increasing demand for these kind of services, why it is important to demonstrate our ability to deliver. That Trafikverket chooses to extend the agreement with us once again emphasizes both our capability to deliver and our position on the market.”
