Press release

New Business Area Manager in Addnode Group

STOCKHOLM, May 31, 2013 - Joakim Dahlgren has been appointed as acting Business Area Manager for Content Management in Addnode Group. Joakim replaces Urban Näsman who is leaving the group management team and is taking on the role as Senior Advisor of the parent company.

Joakim was Emric's previous CEO and President and has also experience from several positions at Tieto. Joakim is hired as an interim consultant and the process of recruiting a new business area manager has begun. During the recruitment process, Joakim will act as Business Area Manager for Content Management and CEO of subsidiary Mogul AB.

"Urban Näsman has constructively managed Mogul since the establishment of Addnode Group and after that also Business Area Content Management. We have through dialogue agreed that he is ready for new challenges", says Staffan Hanstorp, President and CEO, Addnode Group.

"I have through my contacts with Addnode Group received a very positive image of the companies within Business Area Content Management. The companies are perceived as ambitious and professional with highly skilled employees. I look forward to my new assignment with great anticipation and confidence", says Joakim Dahlgren.

The information in this press release is such that Addnode Group AB must disclose in accordance with the Swedish Securities and Clearing Operations Act and/or the Financial Instruments Trading Act. The information was released on 31 May 2013 at 10:00am.
